

Hey Doc,

Rorey and I would like to say thank you for your exceptional care and expertise. Your dedication to your profession and your patients is such a comforting feeling. You have made such a significant difference in my foot health. Honestly, knowing you're there after my oops moments relieves my stress and depression because I know that while no one can fix everything, I know you will devote your time and mind to whatever I bring to you like I'm a beloved family member.

Your patience and kindness are very much appreciated. We also appreciate the staff who have never made us feel unimportant or rushed. Our patient doctor association goes back many years and if I went on about that this letter would be a book lol. I have to mention that I have never forgot when I needed something I think it was a certain boot, I still have it, we couldn't afford it, and you made it happen which was awesome.

Okay, closing this up now, I can be long winded even though I'm typing lol. Thank you Dr. Lefkowitz, from me and Rorey for being such a wonderful doctor and making me feel that my foot issues are important which has been invaluable to my recoveries. You and what you do is and has been one of my blessings in life.
